Case study - DB Global Technology

ABOUT THE PROJECT

WHO IS THE CLIENT

DB Global Technology is part of the Deutsche Bank group.

The technology center, specialized in developing state-of-the-art software for the bank's global operations, was established in 2013 and currently has 900 specialists.

OUR WORK

We delivered the *structured cabling* for DB Global Technology.

OUR SOLUTIONS

STRUCTURED CABLING

The cabling infrastructure we installed was Corning Cat.7 S/FTP cable and Cat.6A connectivity.

The patchpanels were installed in Ortronics open frames.

A *25 year Corning warranty* was issued for the structured cabling for this project.
